DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I claims 1 – 22 in the reply filed on January 12, 2006 is acknowledged.

Allowable Subject Matter

2. Claims 1 – 22 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1 – 22 recite, inter alia, a method of fabricating a FinFET semiconductor structure, comprising steps of forming a fin for a FinFET on a substrate, the fin having first and second sides, introducing a first impurity on the first side of the fin and forming a dielectric layer on the first and second sides, the dielectric layer is thicker on one of the first and second sides than the other of the first and second sides, and the introduced impurity affects dielectric layer thickness. Although, Lin, US 2004/0075122 and Lee, US 6,885,055 teach methods of fabricating a FinFET semiconductor structure, comprising steps of forming a fin for the FinFET on a substrate, they fail teach the above limitations. Additionally, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
